

II/6 Panel

Info Sheet

Your Metal *Finishing Solution*

The *II/6 panel* features a 1/2" low rib height and a 6" span that achieves a more subtle and clean appearance compared to other exposed fastener panels making it great profile for interior liner applications, as well as exterior applications. Great for commercial, agricultural, and residential applications.

We also offer *II/6 Reverse*, which is widely used in soffit applications with the option of adding perforations in the manufacturing process for vented soffits.

Applications: Wall, Ceiling, Soffit, and Fascia

Coverage: 36" | **Depth:** 1/2"

Available Gauges: 24, 26 & 29

Available in **50+ Standard Colours & Specialty Finishes**

Cutting charge applies below 48"

More colours & gauges are available by special order

Looking for Vented Soffit?

We also offer *II/6 Reverse* with perforations for soffit applications.
