

Board & Batten

Vertical Hidden Fastener Steel Cladding Panel

Get a longer lifespan and more design possibilities with our steel upgrade on the popular Board & Batten cladding panel. The integrated battens provide long clean lines and the shadows they create add dimension and interest to any building design, especially when paired with our Textured Colour Series. The panel comes in two coverage widths: 9-3/4" & 13-1/2" with a 2-1/4" long batten at a depth of 1/2", keeping it flush with other popular cladding profiles. Easy installation with a clip system, and no exposed fasteners makes this a simple yet stylish cladding option for residential and commercial applications.

Board & *Batten*

Specifications

Wall Coverage: 9-3/4"

Fasteners: Hidden

Panel Length: Up to 26'10" | Minimum Length: 62"

Cut Charge on Lengths from 24" to <62"

Available in 24 Gauge Standard & Specialty Colours

Installed on a floating clip system, ideal for thermal expansion and contraction

Please note: Custom Lengths Should be Ordered in Multiples of 4

Recommended to Install on Minimum Solid Substrate of 1/2" Plywood
