

FC 36

The Strongest and Most Widely Used 3/4" Panel

With a full 3/4" tall rib designed for maximum rigidity, FC-36 is engineered to strike the ultimate balance between economy and strength. The overlap anti-siphon channel keeps the weather outside, while the 40 year paint guarantee and ultrahigh-tensile substrate keeps the exterior looking great for years to come.

Originally designed for traditional and agricultural buildings, the FC-36 panel is extremely durable and designed to stand the test of time in all climates. This most popular profile is also used in residential roofing, for modern-industrial accents, and on retail and other commercial building designs.

Standard 29 Gauge Colours ** Also Available in 26 Gauge*

Only Available in 26ga
