Your Project with Forma Plank

The Ultimate Wall Panel

Forma Plank is a modern steel cladding solution offering stunning colours and textures in an easy-to-install panel system that will effortlessly make your next build stand out from the rest.

Crafted from 24 gauge steel, Forma Plank is stronger than most other siding options. Backed by a minimum 30 year warranty ensures your plank won't chip, fade or peel.

Economical, simple and amazingly versatile, Forma Plank can be used in a variety of ways, both on exterior and for interior applications.

Bold. Durable. Versatile.

Paired with our Woodgrain Series finishes, Forma Plank gives the same warmth and aesthetics of wood siding but with the strength of steel to ensure a much longer lifespan.

Also available in over twenty 24 gauge colours and our new Textured Steel Series, there's a style to suit every project. Use Forma Plank as an accent, fascia, wainscoting, or to clad entire walls to achieve an exterior that stands out in every design.

The *Smart* Siding Solution

Forma Plank is available in two standard coverages with lengths up to 26 feet. A favourite among contractors, the Forma Plank panel is equipped with a complete set of trims for easy installation every time, and features a clip system ideal for thermal expansion & contraction.

This versatile panel can be installed vertically or horizontally, in varying widths, and is easily integrated with standard cladding profiles, including our Interloc Soffit Panels System.

Custom Lengths

We manufacture the product as it is ordered, allowing for custom lengths based on your exact project dimensions. Only pay for the amount of product you need to get the job done.

100% Canadian

Forma Plank is crafted in Fort Macleod, Alberta, Canada by Forma Steel for over 30 years. Our experienced team is eager to assist you with your project from initial conception through to installation.

Big or Small?

No project is too small - Forma Plank can be used as a small accent on residential homes, or included throughout an entire retail office - blending seamlessly into any design.
