

Plumbing Flashings

Dektite Metal Roof Plumbing Flashings

- Low profile base with watershed sleeve improves water run off and protects silicone sealant
- Unique cone design provides 10mm continuous contact with flashed pipe providing watertight seal
- Clear markings in metric and imperial measurements for easier cutting
- Large size range available in Black EPDM and Grey Silicone with options for Retrofit and High-Pitch
- Twenty Year Warranty

Universal	Flashing Strip 9" x 10'	Black EPDM	PF-DS3-235B

Black EPDM

Grey Silicone

Retro-Fit Original

When it's not possible to slide a flashing over the top of a pipe or vent, you need a Dektite® Retrofit™. Great for repairs on existing installations.
