

# New Slimline

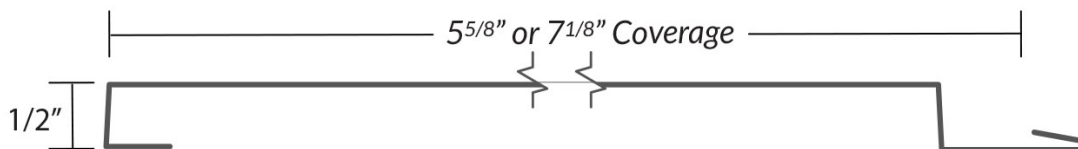

## PANEL IN WIDE & NARROW

## Same Panel. Just Slimmer.

A new slimmer cladding panel is now available from Forma Steel. The Slimline Panel builds off our popular Forma Plank panel but is slimmed down to sit at a 1/2" depth, bringing it in line with other popular cladding products, like our Board and Batten panel.

The Slimline Panel is available in two coverages, Narrow at 5-5/8" or Wide at 7-1/8", and made in the same popular cladding finishes like our Woodgrains, Textured Series or 24 Gauge Standard Colours.
