Sno-Safe Snow Guard in
Coffee Brown

PREVENT ROOF AVALANCHES & PROTECT GUTTERS

Sno-Safe Snow Guards™ prevent damaging snow avalanches on roofs. They work together to function as cleats holding the snow evenly over a roof surface. Sno-Safe Snow Guards distribute snow weight evenly when positioned throughout a roof in staggered rows. As the snow melts the snow guards help to break up the snow into small pieces which shed off the roof. Protect people, gutters, driveways, sidewalks, HVAC units, and decks with Sno-Safe Snow Guards.

STRONG

- Gusseted and thick wall design for maximum strength
- Square channel grooves for adhesive increases shear strength

LASTING

- UV inhibitor prevents discoloration and degradation from damaging sunlight
- Resists temperature extremes
- Virtually unbreakable from snow and ice

VERSATILE

- Available in multiple colours to match roof
- Attach using Adhesive Sealant, Screws or Both!
- Use on metal, rubber, TPO, PVC or Glass Roofs

ATTACH USING ADHESIVE SEALANT ONLY, SCREWS, OR BOTH!

Sno-Safe has designed square profile grooves in the bottom fastening surface of the snow guard to provide mechanical shear strength when fastened using adhesive silicone. In addition to the adhesive properties of the silicone, these grooves allow the silicone to lock the snow guard to the roof providing significant resistive force parallel to the roofing surface.

Sno-Safe has specially designed square channel grooves that maximize bonding strength.

COMMERCIAL & RESIDENTIAL APPLICATIONS

Sno-Safe Snow Guards are the perfect snow retention solution for both commercial and residential roofs. A low profile design provides minimal distraction. Can be installed on large commercial roofs, ledges, skylights, and canopies. Sno-Safe is an equally good choice for residential snow guard protection of homes, garages, and barns.

SB-190 Everseal Clear Adhesive Sealant

Versatile, high strength, hard setting, one-part adhesive sealant for fastening snow guards to roof. Superb 2,000 PSI tensile strength. Water and weatherproof. One Tube of Sealant will fasten twenty (20) Sno-Safe Snow Guards.
