

NAIL STRIP

Info Sheet

Hidden Fastener Standing Seam Panel

The **Nail Strip** panel is a hidden fastener standing seam panel system that offers easy installation for roofers. A suitable choice for climates with high wind, high snow accumulation & extreme temperatures.

With long clean lines, this panel system provides recognized standing seam performance, while remaining an affordable product for a wide array of projects. Works well for both roof and side panel applications and is available with 2-1/4" minor ribs.

Applications: Roof & Wall

Coverages: 10-3/4" to 16" | **Depths:** 1-1/2"

Panel Length: Up to 35' (minimum length: 36")

Available Gauge: 24

Available in 40+ Standard Colours & Specialty Finishes

Slope: Greater than 3/12 is recommended for roofs

Note: Confirm with construction standards and underlayment manufacturing

Substrate: 5/8" Standard plywood minimum (1/2" for walls)

Notching is available upon request

Note: Should *always* be applied on solid substrate

Achieve A Smooth Result

We recommend striations on our **Nail Strip** panels to achieve a smoother result and to minimize the appearance of oil-canning.
